- CSS3
- JavaScript
- and front-end frameworks (React
- Angular
- Vue.js)

Backend
- Good with back-end frameworks like Express.js
- Django
- or Spring Boot

GitHub
Version control systems (Git) and collaboration tools (GitHub)
.Understanding of RESTful APIs and web services

Server side
- Strong knowledge of server-side programming languages such as Node.js
- or Java

Database
- Familiarity with databases (MySQL
- MongoDB
- PostgreSQL) and query languages (SQL
- NoSQL)

Aptitude
-Strong problem-solving and analytical skills
-Excellent communication and teamwork abilities

Project

Java Script projects 🔗
Weather App (Vanilla JavaScript, API Integration):
Developed a weather application using vanilla JavaScript and integrated it with a weather API to fetch real-time weather data. Implemented geolocation functionality to display weather information based on the user's location. Designed an intuitive UI with interactive data visualization for a seamless user experience.

Swag of india E-commerce project 🔗
Created a responsive and interactive e-commerce website using Angular, incorporating features like product listing, search functionality, and shopping cart management.
Developed a RESTful API using Node.js and Express.js to handle user registration, authentication, and order processing.
Utilized MongoDB as the database, implementing data modeling and validation.

Login and signup page 🔗
Developed a full-stack web application using React for the front-end and Node.js with Express.js for the back-end.
Implemented user authentication and authorization features using JWT (JSON Web Tokens).
Integrated with a PostgreSQL database and wrote complex SQL queries for data retrieval and manipulation.
Deployed the application on Heroku and utilized Git for version control.

Certificates

Introduction to Java Programming 2.0 • Everything about Database 2.0

The Complete Front-End Development - 2.0 • Data Structures and Algorithms using JAVA

Microservices using Java, Spring & Docker • Full Stack Aptitude fundamentals

Personal Projects

Git hub 🔗
